Christine Harvey

2008

Undergrad + Masters:

Stockton College: Applied Math + Modeling and Simulation Focus

Odd Jobs: Wawa, Cracker Barrell, Grant's Office, Waitressing, Spencer Gifts

Open Science Data Cloud Fellowship

First SC Attendance

2013

Career Begins

MITRE: FRDFC

Modeling + Simulation

HITTL Simulations

HPC User

SC Volunteering

2016

Leadership Roles

HPC Leadership

Big Volunteer Roles

Open Science Data Cloud Fellowship

2019

Finished PhD

George Mason University: Computational Science and Informatics

Modeling the US Organ Transplant System

SC Executive Committee Roles

2024

NVIDIA

25 Team Members

SIGHPC Chair

Various Leadership Roles

Mentor

NVIDIA

Christine Harvey

Senior AI and HPC Clusters Lead

Deliver the highest standard of HPC capacity to our customers by proactively driving improvements, advocating for the health and stability of the clusters, and engaging with partners to represent the needs of users and systems.

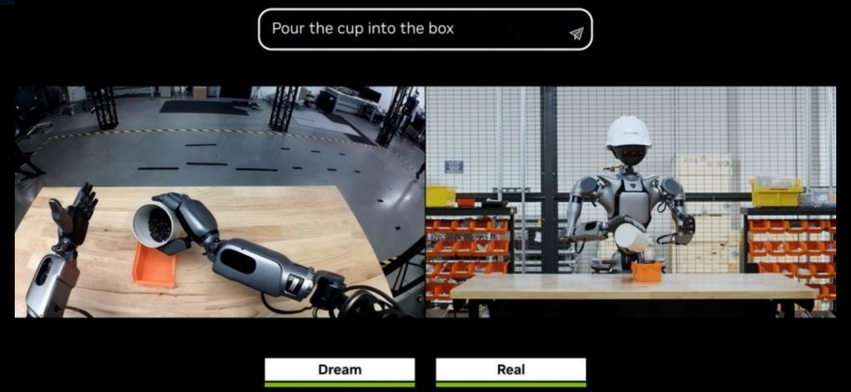

NVIDIA

Research Computing at NVIDIA

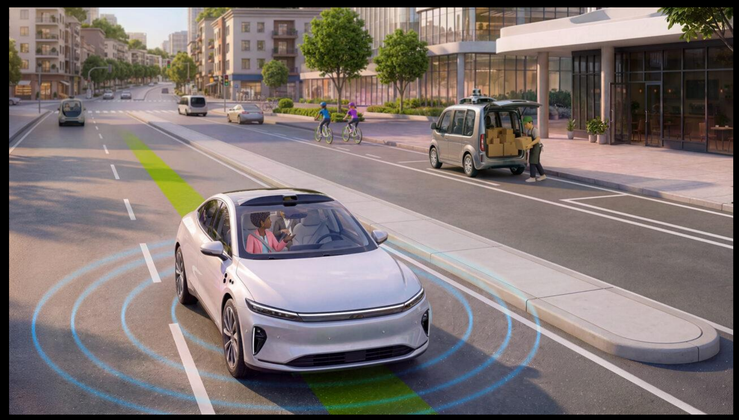

What do **NVIDIA** researchers need from a shared service?

- 100K+ GPUs for Internal Research
  - Designing the next GPUs
  - Building NVIDIA's completely open model, Nemotron
  - Autonomous Vehicle research and production work
  - … & more

- Glue between researchers and the systems

- Maintenance, updates, break-fix, user support, optimizations
